- Dimensions: 11 1/8"H 10"D 7"W
- 14" H with lid in open position

DeskPRO™ Brewer

The DeskPRO™ B130 Single-Cup Brewing System is the perfect desktop solution to meet your individual brewing needs. Its compact size and features are ideal for the personal office setting. The DeskPRO™ Brewing System heats 8 ounces of water in about 3 minutes and then brews just like other Keurig brewers but leaves no water in the brewer. The DeskPRO™ is Keurig Office Grade quality (UL Approved Commercial).

Built for Commercial Grade Use

Keurig Commercial Grade brewers are engineered to stand up to the toughest demands of commercial/office use. Our Commercial Grade brewers generally brew about 10 times the volume of a typical At Home brewer. Commercial Keurig brewers are UL Approved for Commercial Use, and include special construction/materials required for such approval.
