- Plug: 3-wire grounded

OfficePRO™ Brewing System

The OfficePRO Brewing System is an ideal single-cup brewing system for small offices and conference rooms. The OfficePRO includes a drainable internal water reservoir for transport or storage (a feature not available on home brewers).

Built for Commercial Grade Use

Keurig Commercial Grade brewers are engineered to stand up to the toughest demands of commercial/office use. Our Commercial Grade brewers generally brew about 10 times the volume of a typical At Home brewer. Commercial Keurig brewers are UL Approved for Commercial Use, and include special construction/materials required for such approval.
